CAPABILITY STATEMENT

BUSINESS SUMMARY: Established in 1995, G&D is a privately held, economically disadvantaged woman owned small business that has been providing quality CNC and manual machining services, welding and painting services for over 19 years. G&D owns and operates a 22,000 square foot machine shop located on 6 acres in Hammond, Louisiana. G&D Machine Shop is a quality-focused machine shop and custom parts manufacturer that provides quality work, courteous service, and on-time delivery.

SERVICES & CAPABILITIES: G&D is able to provide a wide range services: precision machining, fabrication, welding, gearbox repair, and painting services for both government and commercial entities. We provide short runs or full productions runs of all types of metal, plastic and other various materials. We are able to build to print or reverse engineer from an existing product.
